

Scone Race Club
PRESS RELEASE
9 August 2011

Scone Race Club received official notification today that the Scone Quality Handicap over 1100m has been given 'listed' status.

"The Committee of the Scone Race Club are delighted that this important race has been given the recognition it deserves. It has consistently attracted top class horses as proven by this year's winner, the Kris Lees trained Motspur. This new classification will ensure a high quality field and elevate its status on our May Scone Cup carnival programme" said Club Chairman, Noel Leckie.

"The Club is very excited about this news which means we are the only Country race club with three listed races. We are very grateful to the local breeders and other sponsors as well as the many trainers who support the Club".
